Greenstone

How it works

Setting up SupplierPortal to manage supplier risk and compliance for your business is a straightforward process completed in 4–6 weeks. Before engaging with any suppliers, Greenstone will ensure that your business is prepared and the solution is tailored to your needs.

The setup of SupplierPortal is split in to three steps:

1 Free scoping session

We will help you assess the readiness of your organisation.

- Understand why your organisation needs to gather supplier data.
- Identify what information is needed from suppliers to ensure compliance.
- Plan the most effective way to engage your suppliers.

2 Configuration and data gathering

Greenstone configures SupplierPortal and engages your suppliers.

- We upload all your required questionnaires.
- We configure your risk and compliance indicators.
- We on-board your suppliers and gather their relevant information.

3 Risk and compliance reporting

Your ongoing reporting requirements are managed through SupplierPortal.

- You have access to SupplierPortal populated with your supplier's information.
- You receive risk and compliance reports based on key criteria.
- You have the tools to actively manage, score, and audit your suppliers.
